Changing Retirement Systems

When You Change Retirement Systems

This booklet provides information on the rights and benefits afforded CalPERS members in conjunction with certain other public retirement systems in California.

Please note that CalPERS authority extends only to applying and implementing the California Public Employees' Retirement Law; it does not extend to laws and regulations under which other public retirement systems are administered.

Questions relating to rights, benefits, and obligations under any of the other public retirement systems should be addressed directly to the appropriate system.

Reciprocity is a complex subject. If you have questions while reading this booklet, please call the CalPERS Customer Contact Center toll free at **888 CalPERS** (or 888-225-7377).

Reciprocity

As a member of the California Public Employees' Retirement System (CalPERS) you may be eligible for the benefits of reciprocity. Reciprocity is an agreement among public retirement systems to allow members to move from one public employer to another public employer within a specific time limit without losing some valuable retirement and related benefit rights.

There is no transfer of funds or service credit between retirement systems when you establish reciprocity. You become a member of both systems and are subject to the membership and benefit obligations and rights of each system (for example, minimum retirement age), except as modified by the reciprocity agreement.

You must apply to retire from each system separately, and you will receive separate retirement allowances from each system. You must retire on the same date from each public retirement system participating in a reciprocal agreement for all benefits of reciprocity to apply.

The benefits arising from movement to a reciprocal retirement system are explained in this booklet. It also includes a list of reciprocal agencies including the public retirement systems that have established reciprocity with CalPERS by contract. Note: Even if you do not qualify for the full benefits of reciprocity, certain benefits may still be available to you from CalPERS. See page 5 for more information.

In addition, although there is no reciprocity established between CalPERS and the State Teachers' Retirement System, the Judges' Retirement System, the Judges' Retirement System II, or the Legislators' Retirement System, an agreement with those systems provides similar benefits, which are explained on page 6.

Reciprocity Requirements

When changing retirement systems, you must satisfy certain statutory conditions in order to receive the full benefits of reciprocity:

- You must continue membership in the first retirement system by leaving your service credit and contributions (if any) on deposit (or by later re-depositing contributions you have withdrawn); and
- You must enter employment that leads to membership in the new system within six months of leaving CalPERS employment*; and
- You must retire on the same date under both systems by submitting a retirement application to each system respectively.
- Certain exceptions may exist if you are employed under an independent public agency retirement system before the effective date of that system's reciprocal agreement with CalPERS.

* Eligibility for reciprocity is determined by the retirement laws in effect at the time of movement between employers and retirement systems. Current CalPERS law requires movement within six months.

Important Restrictions

Concurrent Employment: Reciprocity **does not apply** when your employment under the first retirement system overlaps your employment under the new system. For the benefits of reciprocity to apply, you must be separated under the first system prior to joining the new system. This may be true even if the overlapping time is due to running out leave credits. You should check with your current system and new system about their rules **before** you change employment. If you are concurrently employed we will use your highest rate of pay under **CalPERS** when computing your retirement allowance.

Refund Restriction. Some retirement systems may not allow you to withdraw your member contributions while you are employed in a position covered by a reciprocal retirement system or CalSTRS, JRS, JRS II, LRS or UCRP. See **CalPERS Benefits for Non-Qualifying Individuals** on page 5.)

New State Employees: State miscellaneous or industrial employees hired for the first time on or after August 11, 2004, are placed in the Alternate Retirement Plan (ARP) administered by the Savings Plus Program in the Department of Personnel Administration. You are excluded from ARP if you are a member of a CalPERS reciprocal retirement system within the prior six months or are a member of the Judges' Retirement System, Judges' Retirement System II, Legislators' Retirement System, California State Teachers' Retirement System, or the University of California Retirement Plan.

Reciprocity Benefits & Requirements

The following benefits and requirements apply to CalPERS members who make a qualified move between reciprocal retirement systems.

- **Member Contribution Rate Based on Age at Entry:** Retirement formulas for CalPERS miscellaneous members and most safety members are based on a fixed rate of contribution and are not affected by age at entry. However, other systems may use age at entry for their contribution rate. Check with the appropriate system for information.
- **Highest Final Compensation:** CalPERS will compute your final compensation based on the highest rate of pay under any system, as long as you retire on the same date from all systems. Some systems use 12-month highest final compensation; others use 36-month highest final compensation.

Exception: If you retire on a service retirement from another system before you have met the CalPERS minimum retirement age, you can later retire under CalPERS, and we will still use your highest rate of pay under any of the systems.

If you became an elective or appointed officer on or after July 1, 1994, we will use your highest rate of pay under CalPERS.

- **Qualification for Benefits:** Service earned under both systems may be used to meet each system's vesting and retirement eligibility requirements.
- **Disability Retirement:** If you are eligible for disability retirement from your other system (or disability income from the University of California Retirement Plan), you may also be entitled to CalPERS disability retirement benefits, if you retire from both systems on the same date. CalPERS will pay an amount that does not exceed the difference between what you are going to receive from the other system and what you would receive if all

your CalPERS service were also credited with that system. *(If this calculation does not increase your allowance, we will pay an annuity that is the actuarial equivalent of your CalPERS contributions.)*

If you retire from your other system because of a work-related disability, CalPERS will pay an annuity that is the actuarial equivalent of your CalPERS contributions.

If you meet the CalPERS minimum age requirements, you may find it to your advantage to take service retirement from CalPERS and still take disability retirement from your other system.

- **Pre-Retirement Death Benefits:** If you die prior to retiring while you are employed as a member of another system, a lump-sum Basic Death Benefit consisting of a return of your CalPERS retirement contributions will be payable to your beneficiary. An additional lump-sum "employer's share" may be payable. However, the total paid by both systems cannot exceed the maximum lump-sum benefit allowable if all service had been under the other system. If you were a safety member of CalPERS and your death is job related, the monthly Special Death Benefit allowance may be payable to a qualifying survivor.

Important: If you die after reaching age 50, there is no monthly pre-retirement death benefit allowance payable to your surviving spouse or registered domestic partner as there is for CalPERS members who are working for a CalPERS-covered employer at the time of death. Therefore, if you become ill and wish to leave a monthly death benefit to anyone, you **MUST RETIRE** from CalPERS and choose an option that provides a post-retirement monthly death benefit. In this situation, it is advisable to retire from both systems, concurrently.

CalPERS Benefits for Non-Qualifying Individuals

Even if you do not qualify for full reciprocity, CalPERS offers you redeposit rights, vesting, and University of California Retirement Plan final compensation. In addition, if your employer established a reciprocal agreement with CalPERS after you changed membership, and you would have been eligible for reciprocity had an agreement been in effect at the time of your membership change, your retirement allowance will still be based on the highest final compensation under either system (see page 4), as long as you retire on the **same date** under both systems.

- **Redeposit Rights:** If you withdrew your CalPERS contributions and interest and later joined a reciprocal retirement system, you can re-establish CalPERS service credit and membership by making a redeposit.
- **Refund Restriction:** You may not withdraw your CalPERS contributions once you have entered employment covered by the University of California Retirement Plan or if, within six months of leaving State service, you entered employment covered by a system under the County Employees' Retirement Law of 1937 or covered by certain **other** public agency retirement systems.
- **Vesting:** If you are a CalPERS member who is also a member of a reciprocal retirement system, you are eligible to retire from CalPERS without meeting the CalPERS minimum service credit requirement (but you must still meet the minimum age requirement).
- **University of California Retirement Plan Final Compensation:** The average pay rate during any 12-month or 36-month period of employment with the University of California will be used for computing final compensation, if you retire from both systems on the **same date**.

Non-Reciprocal Public Retirement System Benefits & Requirements

Some benefits and requirements apply to CalPERS members and other reciprocal retirement system members who enter employment with the following systems and retire on the same date under both systems:

- State Teachers' Retirement System (STRS);
- Legislators' Retirement System (LRS);
- Judges' Retirement System (JRS);
- Judges' Retirement System II (JRS II); and
- University of California Retirement Plan (UCRP).

However, the following benefits and requirements apply to CalPERS members who enter employment with these systems.

- **Final Compensation:** CalPERS will compute your final compensation based on your highest rate of pay under STRS, UCRP, JRS, JRS II, LRS, or CalPERS during any consecutive 12-month or 36-month period of service, as long as you retire on the **same date** under both systems. (If you became an elective or appointed officer on or after July 1, 1994, we will use your highest rate of pay under **CalPERS**.)
- **Redeposit Rights:** If you withdrew your CalPERS contributions and interest prior to your employment with (and membership in) STRS, UCRP, JRS, JRS II, or LRS, you have the right to redeposit your CalPERS contributions in order to re-establish CalPERS service credit and membership.
- **Refund Restriction:** You may not withdraw your CalPERS contributions once you have entered employment with STRS, UCRP, JRS, JRS II, or LRS.
- **Vesting:** A CalPERS member who is a member of STRS, UCRP, JRS, JRS II, or LRS is eligible to retire from CalPERS without meeting the CalPERS minimum service credit requirement (but must still meet the minimum age requirement).
- **Disability Retirement:** There is no provision for CalPERS disability retirement when you are eligible for a disability benefit from STRS, UCRP, JRS, JRS II, or LRS. You must instead take a CalPERS service retirement on the same date you take disability retirement from the other system in order for the provisions of final compensation to apply. (If you retire on a disability retirement from the other system before you have met the CalPERS minimum service retirement age, you can later retire under CalPERS. We will use your highest CalPERS pay rate to determine your final compensation amount.) If you will be receiving a disability allowance from STRS, you can take a service retirement from CalPERS at the same time (if you meet the minimum retirement age) OR at age 60, when the disability allowance under STRS is changed to a service retirement. Either way, you are considered to have retired on the same date under both systems, and CalPERS will compute your final compensation based on your highest rate of pay under either system.

Member Signature

I understand that by accepting employment in a specific retirement system, I am subject to the laws and regulations administered by that system. I understand that in order to retain the benefits of reciprocity, my contributions may not be withdrawn while I am in employment as a member of JRS, JRS II, LRS, CalSTRS, UCRP, or while I am in employment entered within six months of a system covered under the County Employees' Retirement Law of 1937 or a public agency retirement system listed in this booklet. Furthermore, this information may be shared with the other retirement system.

Upon signing and returning this document, I am electing to establish reciprocity rights between retirement systems, where applicable.
